## RZB Finance (Jersey) IV Limited

### Statement of Directors' Responsibilities

The directors are responsible for preparing the financial statements in accordance with applicable law and International Financial Reporting Standards as issued by the IASB and as adopted by the EU.

Company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that year. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies (Jersey) Law 1991. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In respect of the EU Transparency directive 2004/109/EC, the directors confirm, to the best of their knowledge, that the financial statements for the year ended 31 December 2010 give a true and fair view of assets, liabilities, financial position and profit of the Company as required by IFRS as adopted by the EU and that the Directors' Report gives a true and fair view of important events that have occurred during the year and their impact on the financial statements.

Signed on behalf of the Board of Directors:

*Director*

24 January 2011

## Notes to the Financial Statements

For the Year Ended 31 December 2010

---

### 1 Reporting entity

RZB Finance (Jersey) IV Limited (the “Company”) is a public company domiciled in Jersey. The address of the Company’s registered office is noted on page 1. The Company’s activities consist in raising finance for other group companies (Note 4.1).

### 2 Basis of preparation

#### 2.1 Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board (IASB) and as adopted by the EU on the basis of IAS Regulation 8EC 1606/2002.

#### 2.2 Basis of measurement

The financial statements have been prepared on the historical cost basis.

#### 2.3 Functional and presentation currency

These financial statements are presented in Euro, which is the Company’s functional currency.

#### 2.4 Use of estimates and judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In the opinion of the directors, the accounting estimates and judgements made in the course of preparing these financial statements are not difficult to reach, subjective or complex to a degree which would warrant their description as significant and critical in terms of the requirement of IAS 1 *Presentation of Financial Statements* (revised) except as disclosed in note 12.5.

### 3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

# RZB Finance (Jersey) IV Limited

## Notes to the Financial Statements

For the Year Ended 31 December 2010

---

### 3 Significant accounting policies (continued)

#### 3.1 Foreign currency

Transactions in foreign currencies are translated to the Company's functional currency at the exchange rate ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to functional currency at the foreign exchange rate ruling at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortised cost in foreign currency translated at the exchange rate at the end of the period. Foreign exchange differences arising on translation are recognised in profit or loss.

#### 3.2 Financial instruments

##### 3.2.1 *Non-derivative financial assets*

The Company initially recognises loans and receivables and deposits on the date that they are originated. All other financial assets are recognised initially on the trade date at which the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Company is recognised as a separate asset or liability.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The Company's non-derivative financial assets consist of loans and receivables.

##### *Loans and receivables*

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses.

Loans and receivables comprise long-term loan receivable and other receivables.

##### *Cash and cash equivalents*

Cash and cash equivalents comprise call deposits.

##### 3.2.2 *Non-derivative financial liabilities*

The Company initially recognises debt securities issued on the date that they are originated. All other financial liabilities are recognised initially on the trade date at which the Company becomes a party to the contractual provisions of the instrument.

# RZB Finance (Jersey) IV Limited

## Notes to the Financial Statements

For the Year Ended 31 December 2010

---

### **3 Significant accounting policies (continued)**

#### **3.2 Financial instruments (continued)**

##### *3.2.2 Non-derivative financial liabilities (continued)*

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The Company has the following non-derivative financial liabilities: perpetual capital notes and other payables.

Such financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these financial liabilities are measured at amortised cost using the effective interest method.

##### *3.2.3 Share capital*

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity.

#### **3.3 Impairment**

##### *3.3.1 Financial assets (including receivables)*

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of the asset that can be estimated reliably.

Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Company on terms that the Company would not consider otherwise, indications that a debtor or issuer will enter bankruptcy, the disappearance of an active market for a security.

The Company considers evidence of impairment for receivables.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in profit or loss and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

#### **3.4 Dividends**

Dividends are recognised as a liability in the period in which these are declared.

# RZB Finance (Jersey) IV Limited

## Notes to the Financial Statements

For the Year Ended 31 December 2010

---

### 3 Significant accounting policies (continued)

#### 3.5 Interest income

Interest income is accounted for on an accruals basis using the effective interest method.

#### 3.6 Interest expense

Interest expense on Perpetual Capital Notes is accounted for on an accruals basis using the effective interest method.

#### 3.7 Taxation

The Company is liable to Jersey income tax at 0%.

#### 3.8 New standards and interpretations

*New standards and interpretations applicable to the current year*

A number of amendments to standards and interpretations which became effective for annual periods beginning on or after 1 January 2010, did not have any effect on the financial statements.

*New standards and interpretations not yet effective*

A number of new standards, amendments to standards and interpretations are effective for the annual periods beginning on or after 1 January 2011, and have not been applied in preparing these financial statements. None of these are expected to have a significant effect on the financial statements of the Company.

## 4 Financial risk management

### 4.1 Overview

The Company has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- market risk
- operational risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout these financial statements.

#### Risk management framework

The Board of Directors ('Board') has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's Board is responsible for identifying and analysing the risks faced by the Company, for setting appropriate risk limits and controls, and for monitoring risks and adherence to limits.

# RZB Finance (Jersey) IV Limited

## Notes to the Financial Statements

For the Year Ended 31 December 2010

---

### 4 Financial risk management (continued)

#### 4.1 Overview (continued)

##### Risk management framework (continued)

The Company was set up to raise finance for the group (of which Raiffeisen Landesbanken-Holding GmbH is the ultimate parent). This was achieved by the issue of a financial instrument listed on the Vienna stock exchange, the proceeds of which were used to invest in a financial instrument issued by a group entity. No other similar transactions were carried out by the Company and therefore the operations for the year consisted in servicing the financial liability from the income generated by the financial asset. In addition, the Company incurred minimal administrative expenses. As a result, the Board deems its sole involvement as sufficient to monitor the risks faced by the Company and need not delegate any specific duties to board committees.

#### 4.2 Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's loans and receivables.

##### 4.2.1 Loans

The Company's main financial asset consist of the long-term loan receivable from a group entity, Raiffeisen Bank International AG (RBI), formerly Raiffeisen Bank International AG, and its corresponding interest receivable at year-end. The Company's revenue is derived mainly from this financial asset.

The Board monitors the credit risk continuously based on external ratings of RBI.

No triggers of impairment were identified on the loan receivable, with interest always received as per the conditions of the loan. The debtor has a long term credit rating of A/A-1 negative outlook from Standard & Poor's. Given this rating, the Board does not expect the counterparty to fail to meet its obligations.

##### 4.2.2 Guarantees

The Company does not provide any financial guarantees.

#### 4.3 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Due to the nature of the Company's operations, the Board considers liquidity risk faced by the Company as minimal. The most significant cash outflow consists of the payment of interest expense on the perpetual capital notes. The timing of its cash outflows falls due on the same dates of the cash inflows from the loan receivable. The Board considers its available cash resources as enough to meet other cash outflows which mainly consist of administrative expenses.

# RZB Finance (Jersey) IV Limited

## Notes to the Financial Statements

For the Year Ended 31 December 2010

---

### 4 Financial risk management (continued)

#### 4.4 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Due to the structure of the Company's assets and liabilities, particularly the back to back terms and conditions of the principal financial asset and liability, the net exposure to market risk is also considered to be minimal.

##### 4.4.1 Currency risk

With the exception of certain administrative expenses which are denominated in GBP, all other transactions are undertaken in Euro.

##### 4.4.2 Interest rate risk

Interest incurred on the financial liability is on a floating rate basis whilst the amount receivable from the loan to a group entity yields a fixed margin over this rate in order to cover administration expenses of the Company.

#### 4.5 Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with a company's processes and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risks arise from all of the Company's operations.

The Company's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Company's reputation with overall cost effectiveness. Due to the nature of operations and company's structure, the Board considers the risk to be low.

#### 4.6 Capital management

The Company's assets and liabilities and the relative underlying terms and conditions allow for a highly probable annual margin that increases equity. The Board's policy is to have a sound capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. As the level of net interest income was established on incorporation of the Company, there is little need for the monitoring of the return on capital. The Board of Directors monitors the level of dividends to ordinary shareholders.

All ordinary shares are held by Raiffeisen Malta Bank plc and the Company does not have any share option schemes or hold its own shares.

There were no changes in the Company's approach to capital management during the year.

The Company is not subject to externally imposed capital requirements.

# RZB Finance (Jersey) IV Limited

## Notes to the Financial Statements

For the Year Ended 31 December 2010

---

### 10 Perpetual capital notes (continued)

Non-cumulative interest on the capital notes will accrue:

- (a) from (and including) 16 May 2006 to (but excluding) 16 May 2016 ('the Reset date'), at a fixed interest rate of 5.169% per annum, payable annually in arrears; and
- (b) from (and including) the Reset date at a floating interest rate of 1.95% per annum plus the Reference rate, payable quarterly in arrears on 16 August, 16 November, 16 February and 16 May in each year. The Reference rate ("EURIBOR – 11:00") is the offered rate for three-month Euro deposits.

Interest payments are non-discretionary and are subject to the conditions included in Clause (4) of the Offering Circular.

The capital notes are redeemable at the option of the company, subject to law and to the prior consent of the immediate parent company, Raiffeisen Bank International AG (which shall grant such consent only after either replacement of the principal amount of the capital notes so redeemed by the issuing of other capital of at least equivalent quality or having applied for and been granted consent by the Austrian Financial Market Supervisory Authority (the 'Finanzmarktaufsichtsbehörde' or 'FMA'), in whole but not in part, on 16 May 2016 or any interest payment date falling thereafter, at the redemption price being the liquidation preference plus accrued and unpaid interest from the then current interest period ending on the date determined for the redemption.

In the event of any voluntary or involuntary liquidation, dissolution or winding-up of the Company, the note holders at the time will be entitled to receive the relevant liquidation distribution in respect of each capital note held out of the assets of the Company available for distribution to note holders. Such entitlement will arise before any distribution of assets is made to holders of ordinary shares, preference shares, preferred securities or capital notes or any other class of shares of the Company or any other share or other security issued by the issuer and having the benefit of a guarantee from RBI ranking junior as regards participation in assets to the capital notes, but such entitlement will rank equally with the entitlement of the holders of any other preference shares or preferred securities or capital notes, if any, of the Company ranking *pari passu* with the capital notes as regards participation in the assets of the Company.

Notwithstanding the availability of sufficient assets of the Company to pay any liquidation distribution to the note holders, if at the time such liquidation distribution is to be paid, proceedings are pending or have been commenced for the voluntary or involuntary liquidation, dissolution or winding-up of RBI, the liquidation distribution paid to note holders and the liquidation distribution per security to be paid to the holders of all asset parity securities, shall not exceed the amount per capital note that would have been paid as the liquidation distribution from the assets of RBI (after payment in full in accordance with Austrian law of all creditors of RBI, including holders of its subordinated debt but excluding holders of any liability expressed to rank *pari passu* with or junior to RBI's obligations under the 'Support Agreement') had the capital notes and all asset parity securities been issued by RBI and ranked (i) junior to all liabilities of RBI (other than any liability expressed to rank *pari passu* with or junior to RBI's obligations under the 'Support Agreement'), (ii) *pari passu* with all asset parity securities of RBI and (iii) senior to RBI's Share Capital.

# RZB Finance (Jersey) IV Limited

## Notes to the Financial Statements

For the Year Ended 31 December 2010

---

### 10 Perpetual capital notes (continued)

If the liquidation distribution and any other such liquidation distributions cannot be made in full by reason of the limitation described above, such amounts will be payable pro rata in the proportion that the amount available for payment bears to the full amount that would have been payable but for such limitation. After payment of the liquidation distribution, as adjusted if applicable, the note holders will have no right or claim to any of the remaining assets of the company or RBI.

In the event of liquidation, dissolution or winding-up of RBI, the board of directors shall convene an extraordinary general meeting of the Company for the purpose of proposing a special resolution to place the Company into voluntary winding-up and the amount per capital note to which holders shall be entitled as a liquidation distribution will be as described above.

### 11 Other payables

	2010	2009
	EUR	EUR
Accrued interest payable	16,285,890	16,285,890
Accruals	5,714	5,524
	<u>16,291,604</u>	<u>16,291,414</u>

### 12 Financial instruments

Exposure to credit, interest rate and currency risk arises in the normal course of the Company's business.

#### 12.1 Credit risk

The Company's main financial asset consists of a loan receivable (see note 7) from RBI which has a Standard & Poor's long term credit rating of A/A-1 negative outlook.

The maximum exposure to credit risk consists of the above instrument and its related interest receivable disclosed in note 8.

On 16 May 2006, the company entered into an agreement with RBI ('the Support Agreement') whereby RBI agreed to make available to the company funds sufficient to enable it to meet its obligations should it have insufficient funds.

At year end the Company did not have passed due or impaired receivables.

#### 12.2 Liquidity risk

The Company's main financial liability consists of the Perpetual Capital Notes that have a maturity date concurrent to that of the main financial asset. Furthermore, other liabilities, which are payable within one year, are not significant and are sufficiently covered by the cash and cash equivalents and accrued interest income. Therefore, the Company does not face any significant liquidity risk.

## Notes to the Financial Statements

For the Year Ended 31 December 2010

---

### 12 Financial instruments (continued)

#### 12.3 Interest rate risk

The interest rate on the financial asset is fixed until 15 May 2016, following which the interest rate will become floating at a fixed percentage over EURIBOR. The interest income has been set at 1.3 basis points higher than that on the perpetual capital notes. A change in interest rates would therefore have no net impact on the Company's results and equity.

#### 12.4 Foreign currency risk

The Company is exposed to foreign currency risk on certain expenses, which are mainly paid in sterling. The Company accepts this risk and, accordingly, does not hedge against it. A 10 percent weakening of the Euro against the Pound Sterling would have an insignificant effect on the results and equity of the Company.

#### 12.5 Fair values

The fair values of the Company's financial assets and liabilities are as follows:

	<b>Carrying Amount 2010/2009</b>	<b>Fair Value 2010</b>	<b>Fair Value 2009</b>
	EUR	EUR	EUR
<b>Financial assets</b>			
Long-term loan receivable	<u>500,000,000</u>	<u>343,945,000</u>	<u>235,000,000</u>
<b>Financial liabilities</b>			
Perpetual capital notes	<u>500,000,000</u>	<u>343,945,000</u>	<u>235,000,000</u>

The capital notes are quoted at par on the Vienna Stock Exchange. In view that the market for this instrument is not active, the directors obtained dealer's quote determined on an asset swap spread of +862.2 (2009: +1098.8) based on an instrument issued by RBI, that is substantially the same.

In view of the fact that the Company's financial assets mirror the same terms and conditions of the financial liabilities (with the exception of a 1.3 basis point difference in the coupon rate) and having regard to the difference between the bid/offer price, the directors are of the opinion that the fair value of the financial assets is not materially different from that of the financial liability.

In the opinion of the directors the difference between the carrying value of the long-term loan receivable and its fair value as at 31 December 2010 does not represent an impairment of value, based on the high credit rating of RBI.

In the opinion of the directors there is no material difference between the carrying values of the Company's other financial assets and liabilities and their fair values.

## Notes to the Financial Statements

For the Year Ended 31 December 2010

---

### 13 Cash and cash equivalents

Balances of cash and cash equivalents as shown in the balance sheet are analysed below:

	2010	2009
	EUR	EUR
<b>Analysis of balances of cash and cash equivalents:</b>		
Call deposits	85,940	65,338
	<u>85,940</u>	<u>65,338</u>
<b>Analysed in the Statement of Financial Position as follows:</b>		
Cash and cash equivalents	85,940	65,338
	<u>85,940</u>	<u>65,338</u>

The call deposits amounting to €85,940 (2009: €65,338) were held with group entities. These bear interest at 0% to 0.25% per annum (2009: 0.25%).

### 14 Related parties

#### 14.1 Identity of related parties

The Company has a related party relationship with its immediate parent company and ultimate parent company.

The Company also has a related party relationship with its directors and company secretary.

Gareth Essex-Cater is a shareholder of Mourant Limited. Each of Gareth Essex-Cater, Dean Godwin, Helen Grant and Francois Chesnay was an employee of a subsidiary of Mourant Limited. Affiliates of Mourant Limited provided administrative services to the Company at commercial rates during the period to 1st April 2010.

On 1st April 2010, Mourant Limited sold its interest in certain affiliates to State Street Corporation ("SSC"). Each of Gareth Essex-Cater, Dean Godwin, Helen Grant and Francois Chesnay is now an employee of a subsidiary of SSC. Affiliates of SSC now provide administrative services to the Company at commercial rates.

#### 14.2 Transactions with Directors and Company Secretary

Directors of the Company are employees of an affiliate of the company secretary. During the year the company secretary charged the company management and administrative fees and other charges amounting to €11,137 (2009: €15,147).

## **Independent auditor's report to the members of RZB Finance (Jersey) IV Limited**

We have audited the financial statements of RZB Finance (Jersey) IV Limited for the year ended 31 December 2010 which comprise the Statement of Financial Position, the Statement of Changes in Equity, the Statement of Comprehensive Income, and the Statement of Cash Flows and the related notes. These financial statements have been prepared under the accounting policies set out therein.

This report is made solely to the company's members, as a body, in accordance with Article 113A of the Companies (Jersey) Law 1991. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

### **Respective responsibilities of directors and auditors**

The directors' responsibilities for preparing the financial statements in accordance with applicable law and International Financial Reporting Standards as adopted by the EU are set out in the Statement of Directors' Responsibilities on page 3.

Our responsibility is to audit the financial statements in accordance with the relevant legal and regulatory requirements and International Standards on Auditing (UK and Ireland).

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies (Jersey) Law 1991. We also report to you if, in our opinion, the company has not kept proper accounting records or if we have not received all the information and explanations we require for our audit.

We read the other information accompanying the financial statements and consider whether it is consistent with those statements. We consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements.

### **Basis of audit opinion**

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the company's circumstances, consistently applied and adequately disclosed.

## **Independent auditor's report to the members of RZB Finance (Jersey) IV Limited – continued**

### **Basis of audit opinion - continued**

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

### **Opinion**

In our opinion the financial statements:

- give a true and fair view, in accordance with International Financial Reporting Standards as adopted by the EU of the state of the company's affairs as at 31 December 2010 and of its profit for the year then ended; and
- have been properly prepared in accordance with the Companies (Jersey) Law 1991.
