RBI and the Austrian Raiffeisen Banking Group

RBI is the central institution of the regional Raiffeisen banks and other affiliated credit institutions within the Raiffeisen Banking Group (RBG).

In this function, RBI renders essential service tasks for its direct owners, the regional Raiffeisen banks, and is responsible for joint solutions within its own group and the RBG. In Austria, the RBG is the largest banking group.

Institutional Protection Scheme

The RBG has established an institutional protection scheme (IPS), which, if necessary, ensures the liquidity and solvency of the participating banks. Its basis is the uniform and joint risk monitoring in accordance with Article 49 of the Capital Requirements Regulation. In 2021, RBI and the regional Raiffeisen banks merged the previously existing regional systems into a single IPS, which was approved by the European Central Bank and the Austrian Financial Market Authority as a deposit guarantee scheme.
